

# Kairos<sup>®</sup>

## ELITE

Sulfentrazone 10% ME

- › **SULFENTRAZONE 10% ME**
- › **CLASS III (BLUE LABEL)**
- › **DOSE: 1 - 1.25 L/HA**
- › **REDUCES 50% OF AI/HA**

### BENEFITS

- › Nanoformulated, with great residual effect.
- › Excellent compatibility in tank mix with great stock stability. Homogeneous dose in the entire treatment.
- › The smaller particle size and the nanotechnology formulation provide the product with enhanced absorption and distribution in soils. Less stubble retention.
- › More efficiency and the lowest environmental impact.

**Location: Colonia Ensayo.**
