8	Apofis Elite	700	1200
9	CONTROL		

CONDITION OF THE PLOT AND THE WEED

RESULTS

45 days after application

CONCLUSIONS

- › **45 days after application**, treatments with Gramini and Gramini + Dédalo Elite showed excellent 98% control, with no significant differences between both of them.
- › **60 days after application**, there were no statistical differences between the treatments. All of them were above 90% control.
